

November 3rd, 2020

We were notified of a lab-confirmed case of COVID-19 in a member of the Lac qui Parle School District community with exposure date(s) of 10/30/2020. For privacy reasons, we cannot share details about the status of the person. At this time, they have been advised to stay home and away from other people (isolate). We have worked with Minnesota Dept. of Health (MDH) and Countryside Public Health (CPH) to identify and notify those who had close contact with the person who has COVID-19. These people have been advised to stay home and away from other people (isolate). The risk of exposure for other people present in the building on that date is no greater than the risk of contracting the virus in the general community. If you or your child were not notified that you had close contact with the person, you should still monitor for symptoms of illness, but do not need to stay home unless symptoms develop. If symptoms develop, stay home and consult with your health care provider to determine if medical evaluation is needed. We are working closely with MDH and CPH to monitor the situation. If you have questions, contact Heather Piotter BSN, PHN, LSN, RN, District School Nurse or Greg Schmidt Superintendent.

Thank you for helping to keep our school community safe

*WE SOAR AS ONE*
